## 2. BEFORE USE

Take the device out of its package and check if there is any visible damage. Should it be the case, contact the Technical Support Service of Cecotec as soon as possible for advice or reparation.

## 3. OPERATION

- Regularly check that there are no strange objects on the nozzle that may cause damage to susceptible surfaces.
- Insert the convenient accessory in the main unit to clean tables, cars, corners, sofas, carpets, etc.
- Introduce the accessory for liquids in the main unit to vacuum liquids.
- Switch the On/Off button in the up position to turn the vacuum cleaner on.
- Switch the On/Off button in the down position to turn the vacuum cleaner off.

**Warning**

When vacuuming liquids, do not exceed the MAX mark on the dust tank.

**Charge light indicator**

- Do not connect the charger while you use the product.
- Connect the charger to the power socket. Make sure the vacuum cleaner is off before connecting the charger. Fig. 2
- The blue light indicator will flash when the device is connected to the charger.
- The blue light indicator will remain steady when it is operating.
- To ensure the product is always ready to be used, we recommend you charge it while not in use.
- The charger may heat up during charge. This is normal.
- When the battery level is low, the light indicator will flash again.

**Warnings**

- We do not recommend using the vacuum cleaner while it is charging.
- The battery provided is the only battery compatible with the vacuum cleaner. Do not use the charger to charge non-rechargeable batteries.
- Unplug the vacuum cleaner if it is not going to be used for long periods of time.

**Emptying the dust tank**

Fig.3

- Remove the dust tank by pressing the release button.
- Remove the filter and the plastic protection and empty the dust tank content. Shake the filter or clean it with warm water, without detergent. Make sure the parts are completely dry before reassembling them.
- Wash and rinse the tank if necessary.
- Place the tank back in its position. It will click into place once properly positioned.

**Note:**

Make sure all parts are dry before placing them back in their position.

- Place the filter in the dust tank. Place the dust tank in the main unit following the removal procedure in reverse order.

**4. CLEANING AND MAINTENANCE**

- Use a soft, dampened cloth to clean the product's exterior housing.
- Wash the dust tank with water and dry it carefully before placing it back in the vacuum cleaner.

- Check the filter's condition regularly. If it is dirty, clean it with a small brush and rinse it with water. Let it air dry for 24 hours and reinstall it when it is completely dry.
